

ADDENDUM TO ATN DEALER MARKETING MANUAL (06/03)

This Addendum shows ATN's current rates for switched services. Internet access service is also described. Updates will be made available whenever there are product changes. All material in this Addendum is confidential and proprietary.

ATN's services are provided through PowerNet Global Communications.

Please note: All dealer-generated materials *must* first be approved by ATN.

A. ATN Discount Calling Card

DESCRIPTION: For travelers, college students, business persons, military personnel, etc. A long-distance, stand-alone, calling card for calls away from home and business. It is not a pre-paid card.

RATES: **10.9 cents per minute**; anytime. Rate applies to continental US. Rates for AK, HI, PR and the USVI vary. Low international rates (see following pages). ***For a limited time only: 30 FREE MINUTES.***

BILLING

INCREMENTS: Billed in 6-second increments with a 18-second minimum.

FEES : No monthly minimum, no monthly fee for the calling card. If the card is used from a payphone a 35¢ per call fee is charged as per FCC requirements.

CARD NUMBER: A 10-digit number consisting of the customer's phone number plus a 4-digit random PIN number. Customer has the option of choosing the PIN number.

BENEFITS: ATN's Calling Card is a stand-alone service with substantial savings (of up to 84%) compared to calling card rates from the major carriers and from pre-paid cards (which cost between 25-50 cents per minute, plus fees and surcharges).

With ATN's stand-alone calling card, there is no need to change home or business long distance carriers.

Each customer receives an itemized monthly bill.

The ATN Discount Calling Card offers a unique multiple calling feature which allows customers to complete numerous calls without hanging up and re-dialing between calls.

International calls originating in the United States are also billed at competitive rates.

COMPETITIVE
ADVANTAGE:

Calling cards from AT&T, MCI and Sprint charge much higher rates per minute and also have high surcharges. They also bill in full minute increments as compared to ATN's 6-second billing.

Cards from other major carriers are generally not "stand-alone." In other words, a customer must also have the carrier's 1+ service in order to get their calling card. Being "stand-alone" is a great benefit for business customers who may not be able to switch their 1+ carrier because of a contract.

TARGET
MARKET:

It's not too hard to guess who your target market is. (Answer: Anyone now using AT&T, MCI, Sprint, etc.)

B. ATN Toll-Free Service

DESCRIPTION: For travelers, businesses (home-based or traditional), college students and families. Toll-free long distance service with a separately assigned number which rings into an existing phone line.

STATE-TO-STATE
RATE:

5.4 cents per minute, flat rate for calls within the continental US.
(Calls can be made from Alaska, Hawaii, Puerto Rico and the US Virgin Islands to the continental US; calls cannot ring to Alaska, Puerto Rico or the US Virgin Islands but can ring to Hawaii.)

IN-STATE
RATES:

Varies by state. *See following pages.*

BILLING
INCREMENTS:

Billed in 6-second increments with an 18-second minimum.

FEES:

No monthly fees. If the toll-free service is used from a payphone a 35¢ per call fee is charged as per FCC requirements.

BENEFITS:

Toll-free calls ring to a customer's present phone line (or other designated line). No additional equipment or telephone lines are needed. It is the least expensive way to call home or to receive business calls. Customers save money. *No PINs needed.*

Other rate: 37 cents per minute from Canada to the US.

COMPETITIVE

ADVANTAGE: Most other toll-free offerings charge much higher per-minute rates and most have a high monthly fee or minimum.

The much-advertised 1-800-COLLECT is the biggest “rip-off” yet.

Their current daytime rate is a whopping 65 cents per minute with a surcharge of \$3.99. Plus, after the call is completed, the call is assessed a 9.9% Universal Service Fund Charge! *“Hi, Mom. Happy Birthday...and, as a present, you’re paying for this call!”* How bad is that?

Actual 800-numbers (those that are not “recycled”) are no longer available. 888 and 877 numbers are nearly used up. Most likely your toll-free service customer will receive an 866 number.

Transferring of Existing Toll-Free Numbers (800, 888, 877, etc.): Many potential customers already have a toll-free number from another carrier and strongly desire to switch to ATN’s services. They may be concerned that they may not be able to keep their current toll-free number.

As long as their current toll-free number does not have a PIN number, and there is no outstanding bill balance with the current carrier, you can assure them that their number can be transferred to our services. If a customer indicates that they desire the transfer, the appropriate form to complete for the transfer will be sent to them. *(The form is called a “Resp-Org” form, meaning Responsible Organization; this form is available on the Dealer Support Website: www.callatn.com/dealers).*

C. ATN Long Distance Service

DESCRIPTION: For home and business long-distance calls. Primary carrier long distance service for home and businesses.

STATE-TO-STATE

RATE: **Flat rate of just 5.4 cents per minute** for calls within the continental US. *(For rates to AK, HI, PR, USVI and Canada see following pages.)* **For a limited time only: One Hour Free Calling.** *(Credited in the third month’s billing.)*

IN-STATE

RATES: Varies by state. *See following pages.*

BILLING

INCREMENTS: Billed in 6-second increments with an 18-second minimum. (Sprint, AT&T and others have full-minute billing).

FEES: None.

INTERNATIONAL RATES: The ATN Long Distance international rates are excellent. International billing is in 6-second increments with a 30-second minimum.

BENEFITS: Low rates with six-second billing. Others generally charge in full-minute increments. Customers save money. AT&T and Sprint each charge a monthly fee of \$2.95 or \$8.95.

COMPETITIVE ADVANTAGE: The Big Three are beginning to play catch-up. Products from other carriers still have off-peak rates that begin at 7PM and end at 7AM. ATN's products are all flat-rated; the same low rate applies day or night. Sprint and AT&T have recently introduced flat rates; but they add monthly fees of \$2.95 and \$8.95. Their TV commercials do disclose the fees (if you can read the small type that appears for about a second). If a customer makes 100 minutes of long distance calls during the month, the fee effectively brings their long distance rate to 14 cents per minute. Not much of a deal! *That's 259% higher than ATN's Long Distance Service!!* Sprint, MCI, AT&T and most others bill in full minutes. 6-second billing represents an average effective discount of about 10% (based upon a 4.5 minute call that's billed for 5 minutes by full-minute billers).

NOTE: OTHER LOWER RATES, WHICH HAVE SMALL MONTHLY MINIMUMS OR MONTHLY FEES ARE ALSO AVAILABLE. CALL 1-888-ITS-GREAT TO SEE IF THESE ARE APPLICABLE FOR ANY OF YOUR CUSTOMERS.

D. ATN Unlimited Internet Access Service

The rate is \$9.95 per month for unlimited local access. Includes 5 e-mail accounts and 10 megs webspace. Your choice of browser. ATN waives the usual start-up fee of \$25.

Local access numbers are provided for every major city in the country. Busy signals will be a thing of the past.

ATN Internet Access Service is also available for Macintosh.

Rate Sheets

The following pages have more information about the specific rates outlined above.

IN-STATE RATES (PER MINUTE) FOR LONG DISTANCE AND TOLL-FREE SERVICES

When calling from state-to-state with ATN Long Distance or ATN Toll-Free Service Plans your rate will be 5.4¢ per minute. However, when calls are made within a specific state (in the continental U.S.), the rates per minute vary as follows:
